Want to work on cutting-edge space exploration technology at Honeybee Robotics?

Summer 2012 Internship

Sponsored By

Honeybee Robotics Spacecraft Mechanisms Corporation + NASA/New York Space Grant Consortium

Eligibility

• United States citizen
• Full-time undergraduate or master’s student at a NY Space Grant Institution
• Mechanical engineering or electrical engineering major, enrolled in master’s program or completing undergraduate junior or senior year by summer 2012
• Minimum GPA: 3.0 (on a 4.0 scale)

Details

A summer 2012 position is available for a student to engage in hands-on engineering projects with a mentor during the 10-week, full-time internship at the Honeybee Robotics facility in New York City (Manhattan). A stipend of $7,000 will be provided.
