Want to work on space vehicle propulsion and actuation at Moog?

Summer 2012 Internships

Sponsored By
Moog Space and Defense Group + NASA/New York Space Grant Consortium

Eligibility
- United States citizens
- Full-time students at NY Space Grant institutions, completing junior or senior year or enrolled in master’s program by summer 2012
- Electrical Engineering, Mechanical Engineering, or Systems Engineering majors, with minimum GPA of 3.5 (on a 4.0 scale)

Details
Summer 2012 positions are available for interns to support design, analysis, development, and qualification tests during 10-week, full-time internships at Moog Space and Defense Group’s East Aurora, NY facility. Each intern will be provided a stipend of $6,500.
